## CliQ, CliQ II, PMC, PMT series

The World's Number One in Industrial Power Solutions

Delta is the world's largest power supply manufacturer. The state-of-the-art DVP, CliQ, CliQ II, PMC and PMT series power supplies offer a nominal output voltage of DC 24V/12V, a minimum holdup time of 20ms. The rugged and ultra-compact case material is shock and vibration resistant according to IEC 60068-2. The power supplies provide over-voltage, overload and thermal protection. The wide input voltage ranges from 85 to 264 VAC (1 phase) and 320 to 600 VAC (3 phase), and the multiple output terminals are for fast wiring and easy installation.
